The California Public Utilities Commission has authorized a wholesale gas rate increase of \$3,746,000 a year for the Pacific Lighting Gas Supply Company.

At the same time, the commission served notice on the company, supply affiliate of the Southern California Gas Co., to "resist unwarranted increases in field prices of natural gas."

THE COMMISSION authorization trimmed \$1.144.000 from the 48,890,000 increase sought by the natural gas supply firm. The order, which takes effect Jan. 1, 1959, gives the company a net increase of \$1,724,000 after taxes. Concerned over "the impact on ultimate consumers because of continuing increases in the field cost of gas inside and outside the state," the commission warned of future increases.

NOTING THAT THE increase was authorized to offset higher prices that must be paid for na-tural gas in the field, the com-mission said:

"We now put the applicant on notice that we shall authorize rate increases to offset prices the applicant pays for gas only when and if we are convinced that such prices are fair and reasonable."

THE COMMISSION must also be convinced that "the applicant has been diligent to protect the welfare of its customers in negotiating its gas purchase

Local Company Announces New Development

The successful conclusion of 6 years planning by competent designers and engineers has just been announced by Sun-Boss officials. Recognition of the many conventional styles of roofs used for covering Palm Springs patios prompted them to scrap existing plans and design the ultimate in patio roofs.

Until this time, architects and builders hesitated recommending a patio covered because of the problems in achieving a graceful, eye-appealing structure using colorful building materials. Many home owners were reluctant to attach to their homes a massive type heavy wooden structure that detracted from their home value.

type heavy wooden structure that detracted from their home value.

The enthusiasm of leading architects for the new Sun - Boss design is tremendous. The revolutionary design of the Sun-Boss Patio Cover incorporates the use of embossed aluminum, with baked DuPont enamel, in a manner which eliminates the need of slats, braces and beams. It achieves a light, graceful appearance yet will withstand the strongest Tahquitz Twister. The horizontal facia forms a portion of the built-in rain gutter achieving a modern look and eliminates the probability of seasonal rains causing water damage. Over 3000 baked enamel colors assure the most discriminating buyer a perfect match or contrast with the home.

Stanley Doyle, local representative, will be available to make estimates and advise in patio planning. He may be contacted at FAirview 5-2161 or at No. 17, The Plaza, Palm Springs. (Adv.)

O. A. Torgerson, founder-presi-dent of the Desert Bank, which maintained offices at Cathedral City, Palm Springs and Indio un-til its merger with Citizens Bank in 1934, has been elected to the board of directors of the Pearson Mortgage Co. and Pearson, Scott and Co., it was announced here. The announcement followed the

annual joint stockholders meeting and was made by E. F. Pearson, president of the two firms.

Torgerson had been president of the Bank of Kodiak, Alaska,

which he also founded prior to World War II, until his retirement

The banker has again indicated an intention to retire and will probably do so following a visit to the Kodiak institution in the spring, Pearson said. Pearson added that Torgerson will retire to his newly-purchased home at Idyllwild and will maintain an interest in banking through his board appointment.

Other directors of the two companies are John F. Carroll of In-dio, George H. Scott of La Quinta, Eunice O. Tiss of Palm Springs, and Pearson for the Pearson-Scott firm and S. Earl Henderson, Eunice O. Tiss, of Palm Sprimgs, Robert E. Blau of Riverside, Robert K. Hanson, C. Ritchie and Fred Siemen Palm Desert and Pearson, for the Pearson Mortgage board.
